our 2020 impact

health

We support vulnerable people to access the health and social services they need to enjoy a healthy life.

2,082,293 people with improved access to health and social services

livelihoods

We empower people with limited livelihood choices to gain the resources they need to become income-secure.

1,408,819 people with increased net income and savings

environment

We partner with resource-dependent communities to help them gain lasting benefit from the sustainable use of the natural resources around them.

2,378,418 people benefiting from improved natural resource management

capacity development

We help systems, organizations and individuals learn, adapt and create sustainable development outcomes.

2,032 partner organizations have been supported

governance

We support an enabling environment that fosters inclusive, transparent and accountable governance.

748,303 citizens participating in initiatives that resulted in positive civic and state-society engagement

business and markets

We tap into the power of markets as a force for development.

218,079 people served by mining projects

energy

We work toward a future where all people can enjoy the benefits of modern energy.

67,796 people with increased access to energy

This year, the communities that Pact serves faced unprecedented challenges. The Covid-19 pandemic has disrupted the steady headway of recent decades against global poverty, slowing and even reversing hard-won progress. Pact's partners around the world - from civil society organizations and nonprofits to governments and the private sector - have worked under extremely difficult conditions to not lose sight of their goals.

Pact adapted quickly to adjust our global programming to meet new demands created by the virus and to continue our existing work to the fullest, safest extent possible.

We introduced new delivery models and theories of change and shifted to remote data collection and online programming where appropriate. We reached millions of people with vital services and support, including business training for fledgling entrepreneurs, HIV prevention, testing and treatment for those who needed it most, access to justice for marginalized groups, Covid education for remote villages, and much more.

Now more than ever, the international development sector must ensure that it is effective and accountable. As we have done for the past 10 years, we are proud to share the impact of our work for the 2020 fiscal year, from October 2019 to September 2020. The data that follow include results from our global indicators in the areas of health, livelihoods, the environment, capacity development, governance, business and markets, and energy. We also share our results by location.

We strive to be as transparent as we can about the outcomes of our programming because it is key to making the most impact possible toward ending poverty and marginalization in partnership with the people and communities we serve.

For more information about our methodology, contact our Results and Measurement team, rm@pactworld.org.

health

Achieving good health and well-being requires working toward healthy lives for all ages around the world.

Pact works at national and sub-national levels to improve access to health and social services, enabling stakeholders to develop local solutions. We achieve this through collaboration with civil society organizations, government agencies, community groups, and private and faith-based service providers. Pact pioneers sustainable community-led HIV/AIDS and health programming that highlights the needs of vulnerable children, adolescents, pregnant and breastfeeding women, caregivers and families, and key populations. Our integrated community-based solutions have also been influential in facilitating community response and resilience to shocks and stresses such as the Covid-19 pandemic.

To make lasting change for the next generation, communities must have the skills, resources and opportunities

to responsibly benefit from the natural resources around them, from fish to forests to mineral deposits. In partnership with governments, local organizations and the private sector, we foster sustainability in agriculture and forestry supply chains; strengthen local capacity and effective community-based natural resource management governance systems; and help people develop alternative and sustainable nature-based enterprises.

capacity development

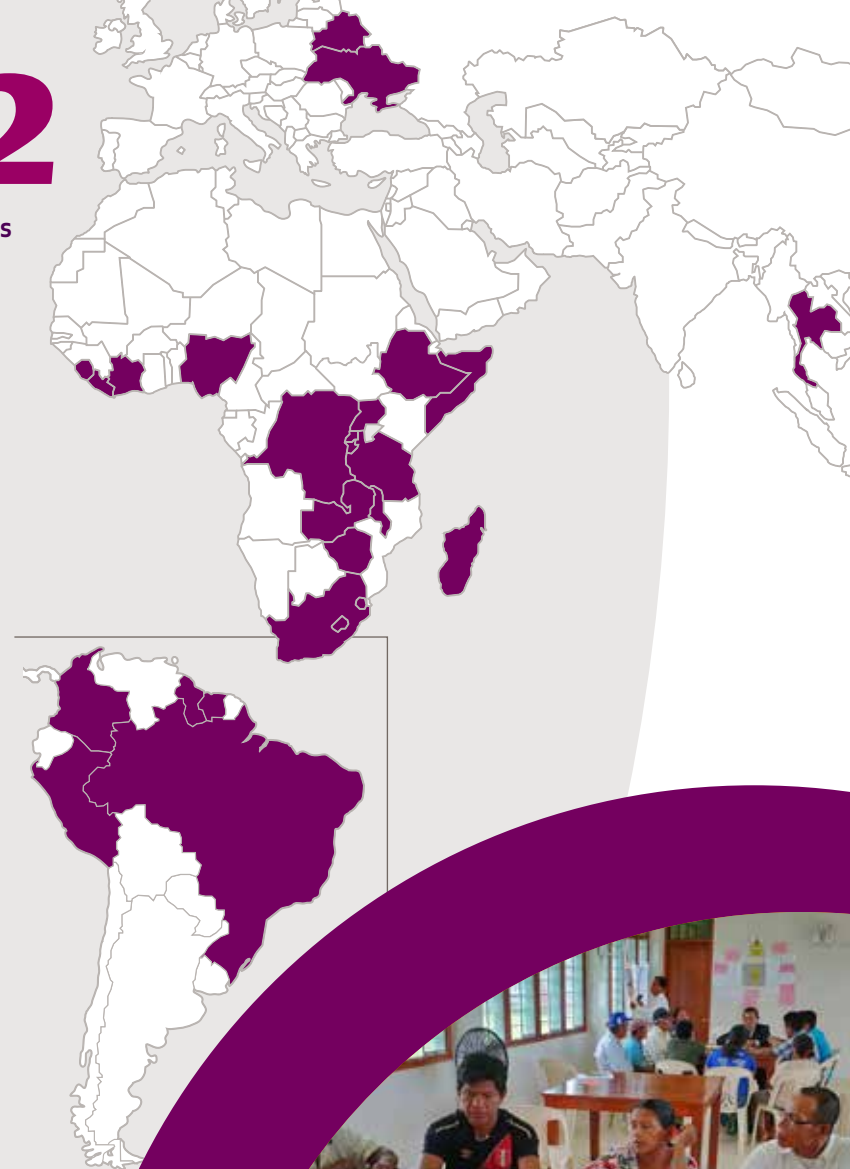

To sustainably transform communities and systems, they must become self-reliant.

Pact views capacity development as an inclusive process, approach and outcome. Capacity development must be intentional, go beyond knowledge transfer, rely on co-creation and complementation, incorporate innovative technologies in creative ways and agilely work within complex, adaptive systems. Pact's capacity development work is holistic and intersects all of our programming to best meet the needs of our local partners and to bring them to the forefront in this process.

Inclusive, transparent and accountable governance systems are critical building blocks for local development.

Pact promotes constructive citizen-state relationships, empowering citizens to participate in and influence local decision-making while supporting governments to deliver quality services and manage public resources. We foster positive social dialogue as a basis for communities and local authorities to resolve longstanding grievances, manage conflict and promote peace. We also support networks of local actors - community groups, civil society, governments, private sector - to address difficult collective action challenges. This includes partnering with underrepresented communities such as youth, women, indigenous peoples and migratory communities to advance claims to services, basic rights and justice.

Using markets as a positive force for development means that communities have the systems and opportunities that they need to achieve the change they desire.

Pact’s signature Mines to Markets program brings together government, industry and miners – both men and women – to make artisanal and small-scale mining (ASM) safer, formal and more productive and to address challenges such as child labor in mining. Pact’s efforts are helping to reveal and make the most of ASM’s contributions to development in communities around the globe.

energy

67,796

PEOPLE WITH INCREASED ACCESS TO ENERGY

Energy is an essential resource for all people. Without access to reliable, sustainable and affordable sources of energy, starting or growing a business, delivering modern health care, or enjoying basic comforts such as lighting are out of reach for more than one billion people. Pact collaborates with governments, companies, investors and other civil society organizations to connect supply and demand for energy, remove market distortions and work toward a future where all people can enjoy the benefits of modern energy.

our impact, by location

BELARUS

Pact works in Belarus to build civic engagement, achieve positive social change and increase the availability and influence of objective information for decision-making.

8 PARTNER ORGANIZATIONS WERE SUPPORTED.

4,630 CITIZENS PARTICIPATED IN **48** INITIATIVES RESULTING IN POSITIVE CIVIC AND STATE-SOCIETY ENGAGEMENT.

CAMBODIA

For nearly 30 years, Pact has been implementing an integrated approach to improve lives in Cambodia, bridging gaps between sectors so communities can respond to their development challenges holistically.

17 PARTNER ORGANIZATIONS WERE SUPPORTED.

3,600 HECTARES OF ECOSYSTEM WERE UNDER IMPROVED MANAGEMENT.

1,896 CITIZENS PARTICIPATED IN **172** INITIATIVES RESULTING IN POSITIVE CIVIC AND STATE-SOCIETY ENGAGEMENT.

1 PROJECT INCLUDED BUSINESS AND MARKETS AS A FORCE FOR POSITIVE CHANGE

COLOMBIA

In Colombia, Pact works with civil society, institutions and the private sector to reduce child labor and improve working conditions in gold and coal mining as well as cut flower and unrefined sugar sectors. Pact also supports conservation efforts in the Amazon through partnerships with indigenous peoples' organizations and addresses the Venezuelan migration crisis in Colombia through programming focused on citizen security and social cohesion.

 **239** PEOPLE HAD IMPROVED ACCESS TO HEALTH AND SOCIAL SERVICES AND **3** HEALTH AND SOCIAL SERVICE SYSTEMS WERE STRENGTHENED.

DOMINICAN REPUBLIC

In the Dominican Republic, Pact is partnering with communities, governments, the private sector, and local organizations and care providers to achieve and maintain HIV epidemic control among pregnant and breastfeeding women, infants, children and youth. Pact provides targeted support to individuals of Haitian descent, including migrants, to address barriers to health care and facilitate access to key complimentary services, such as education, documentation and food supply.

 **7,391** PEOPLE HAD IMPROVED ACCESS TO HEALTH AND SOCIAL SERVICES.

ESWATINI

Pact is reducing the impact of HIV in Eswatini with a multifaceted approach, including working with youth, local communities and civil society to ensure they have the tools necessary to combat the disease.

 **119,394** PEOPLE HAD IMPROVED ACCESS TO HEALTH AND SOCIAL SERVICES.

 **7,357** PEOPLE INCREASED THEIR NET INCOME, AND **586** SAVINGS AND MICROFINANCE GROUPS INCREASED THEIR FUNDS.

 **11** PARTNER ORGANIZATIONS WERE SUPPORTED.

ETHIOPIA

In Ethiopia, Pact strengthens government systems to identify, prevent and address issues that may lead to violent conflict and improves management of natural resources through community action planning and strengthening community-based structures. Pact also supports capacity development for local civil society organizations.

 **173** PARTNER ORGANIZATIONS WERE SUPPORTED.

 **44,717** CITIZENS PARTICIPATED IN **191** INITIATIVES RESULTING IN POSITIVE CIVIC AND STATE-SOCIETY ENGAGEMENT.

INDONESIA

In Indonesia, Pact is applying its expertise in building the capacity of local organizations to improve HIV prevention and care services for people who need them most. Pact is also catalyzing private-sector finance to drive investments into low-emission agriculture, forestry and other land uses.

 **91,505** HECTARES OF ECOSYSTEM WERE UNDER IMPROVED MANAGEMENT.

KENYA

Pact works in Kenya and its border regions to foster peace and stability to support the health, livelihoods, wellbeing and resilience of communities by strengthening national and regional institutions and local civil society organizations.

 **28,836** CITIZENS PARTICIPATED IN **42** INITIATIVES RESULTING IN POSITIVE CIVIC AND STATE-SOCIETY ENGAGEMENT.

LESOTHO

Pact is working to turn back the tide of HIV in Lesotho through an integrated strategy of health systems strengthening, civil society capacity development, prevention and access to care for vulnerable populations.

 **133,574** PEOPLE HAD IMPROVED ACCESS TO HEALTH AND SOCIAL SERVICES.

 **9** PARTNER ORGANIZATIONS WERE SUPPORTED.

LIBERIA

Pact is supporting communities to develop forest-management capacity and key rural forest-based enterprises that provide sustainable economic opportunities for rural farmers and forest-dependent people while also stemming deforestation and biodiversity loss.

 **4,200** PEOPLE INCREASED THEIR NET INCOME, AND **149** SAVINGS AND MICROFINANCE GROUPS INCREASED THEIR FUNDS.

 **350,833** HECTARES OF ECOSYSTEM WERE UNDER IMPROVED MANAGEMENT.

 **21** PARTNER ORGANIZATIONS WERE SUPPORTED.

MADAGASCAR

In Madagascar, Pact works to conserve biodiversity and secure natural resources while promoting resilient livelihoods by enabling effective community-based management and protection of biodiversity resources. Pact is also supporting social services for youth empowerment by improving youth employability, professional skills and access to quality education through the award of merit-based scholarships, free tutoring courses, academic and vocational orientation sessions for youth and training in employability.

 **20** PEOPLE INCREASED THEIR NET INCOME.

 **2,085,000** PEOPLE BENEFITED FROM IMPROVED NATURAL RESOURCE MANAGEMENT, AND **1,538,000** HECTARES OF ECOSYSTEM WERE UNDER IMPROVED MANAGEMENT.

 **15** PARTNER ORGANIZATIONS WERE SUPPORTED.

 **134** CITIZENS PARTICIPATED IN **11** INITIATIVES RESULTING IN POSITIVE CIVIC AND STATE-SOCIETY ENGAGEMENT. **3** POLICY CHANGES WERE INFLUENCED.

MALAWI

Pact works to conserve the freshwater biodiversity of Lake Malawi by restoring natural fisheries productivity in eight lakeshore districts.

 **222** PARTNER ORGANIZATIONS WERE SUPPORTED.

 **5,456** CITIZENS PARTICIPATED ONLINE IN **2** INITIATIVES RESULTING IN POSITIVE CIVIC AND STATE-SOCIETY ENGAGEMENT.

global & regional projects

Pact's global and regional projects operate across more than **20** countries. Through these programs Pact is improving HIV prevention and maternal and child healthcare, building the capacity of local governments and partners, supporting local governments and civil society organizations to address local development challenges sustainably, supporting climate change mitigation strategies, and piloting change within the artisanal and small-scale mining sector. Highlights of our global and regional projects include:

GLOBAL

Pact provides technical assistance and direct service delivery to help PEPFAR countries achieve and maintain HIV epidemic control among pregnant and breastfeeding women, infants, children and youth. Additionally, Pact supports the transition of prime funding and implementation to capable local partners to meet the PEPFAR goal of 70% funding to local partners, and works to prevent and respond to gender-based violence and empower youth to own their own future.

22 PARTNER ORGANIZATIONS WERE SUPPORTED.

45,572 PEOPLE HAD IMPROVED ACCESS TO HEALTH AND SOCIAL SERVICES.

AFRICA GREAT LAKES REGION

In Democratic Republic of the Congo, Uganda, Rwanda and Burundi, Pact assists communities to gain lasting benefits from the more sustainable use of natural resources. Pact takes an integrated approach to its work in the mining sector, linking mining to livelihoods, governance, health, environment, and the strengthening of local, regional and national institutions.

64,358 PEOPLE INCREASED THEIR NET INCOME.
