To Whom It May Concern:

The Birch Wathen Lenox School would like to donate the accompanying check for \$944.38 to the relief effort in Myanmar. We heard about your organization through David Dobrowolski, the father of a friend of one of our teachers. As a school, we were really affected by the horrendous accounts coming from the region and wanted to help in any way that we could. Various students in the middle and upper schools worked together to organize a bake sale and a dress down day, both of which raised money for your organization.

We appreciate all that you do, and hope that our donation will, in some small way, help those still suffering in the aftermath of the cyclone.

Sincerely,
The Students of The Birch Wathen Lenox School &
