TERMS OF REFERENCE

Conducting Livelihoods and Market Assessment to Identify Economic Opportunities for Caregivers of Orphans and Vulnerable Children

Period of Performance: Tentative July 2022

Contract Type: Fixed contract

Introduction

Pact is an international nonprofit that works in nearly 40 countries building solutions for human development that are evidence-based, data-driven, and owned by the communities we serve. Founded in 1971, Pact works with partners to build resilience, improve accountability, and strengthen knowledge and skills for sustainable social impact.

The Adolescents and Children HIV Incidence Reduction, Empowerment and Virus Elimination project, or ACHIEVE, is a five-year global effort to reach and sustain HIV epidemic control among pregnant and breastfeeding women, adolescents, infants, and children. The project is funded by the President's Emergency Plan for AIDS Relief (PEPFAR) through the United States Agency for International Development (USAID) and implemented by a Pact-led consortium of top global HIV/AIDS partners, including Palladium, No Means No Worldwide, and WI-HER. ACHIEVE collaborates with the Government of Tanzania and Local Implementing Partners (LIPs) to implement the Economic Strengthening (ES) interventions.

The ES interventions aim to ensure that parents and caregivers have the financial resources to meet the needs of vulnerable children and adolescents by increasing households' capacity to cope with different risks they face and improving their resilience to future shocks. ACHIEVE considers sustaining the positive results of WORTH Yetu groups and individual households' livelihoods among impoverished families. The project ensures temporary consumption for those that struggle. It provides assets protection mechanisms through savings and lending groups, money management entrepreneurship knowledge, and linkages to economic strengthening service providers and financial institutions to access credits. ACHIEVE increase caregivers' and older OVC capacity to diversify opportunities for increasing income and assets by developing foundational and industry-specific enterprise skills, identifying economic opportunities, and linking to local resources. Working through savings and lending methodologies, Pact integrates income generation and diversification principles to ensure savings are used productively and empower members to become entrepreneurs.
The Overall Objective of the Assignment:

To conduct a market assessment to guide skills development and training, focusing on growing industries and traditionally male-dominated sectors that contribute to diversified economic opportunities for improving income and assets by strengthening WORTH Yetu group members' ability to engage in the viable and appropriate market-led opportunities.

Specific Objectives of the Assignment:

a) Recommend opportunities around value chains with higher potential for women's involvement and suggest entry strategies for women caregivers to enter male-dominated enterprises/sectors in 18 councils.

b) Recommend gender-transformative training for caregivers and older OVC to develop financial literacy, marketable skills, entrepreneurial mindset, and an actual bridge to employment through employment or self-employment with ongoing mentorship for both wage and self-employment.

c) Develop appropriate tools, Standard Operating Procedures (SOPs) for cluster-level staff to use with output replication and deliver core training that will enable cluster staff to conduct market assessments in the future independently.

Scope of Work

The consultant will complete the following task while reporting to Economic Strengthening Advisor:

1. Present inception report and plan detailing how the consultancy will be done, the tools to be used, methodologies, and who will be engaged, including site-visit plan.
2. Develop tools that will be used to conduct the market assessment.
3. Conduct Preliminary desk review, validation, and ground-truth, including:
   a) Identification of councils/ economic areas for piloting market assessment tools and councils for conducting market assessment generally applicable to other project areas.
   b) Identification of potential market opportunities and barriers to access market in selected councils.
   c) Providing general guidance on types of training for project beneficiaries.

4. Visit project-assigned areas to conduct market and livelihoods opportunities assessment and scan areas to identify potential value chains.
5. Conduct analysis of OVC caregivers and older OVC business skills to enable them to take advantage of emerging and available opportunities in their communities.
6. Write a final report and present summarized findings and recommendations to Deputy Project Director, Technical Director – DREAMS and OVC Service Delivery, and Economic Strengthening Advisor. The report must include all critical areas of the assignment.
**Time frame**

This assignment will be conducted in a period of 1.5 months.

**Expected Deliverables**
